Performance by exam section

Each section, and its corresponding percentage of the exam, appears to the left of the chart. The length of the bars represents your section-level performance. Shorter bars reflect weaker performance, and longer bars reflect stronger performance.

Develop Azure Compute Solutions (25-30%)

Develop for Azure Storage (15-20%)

Implement Azure Security (20-25%)

Monitor, Troubleshoot, and Optimize Azure Solutions (15-20%)

Connect to and Consume Azure Services and Third-party Services (15-20%)

0%   100%
Note: Because the number of questions in each section varies, the length of the bars cannot be used to calculate the number of questions answered correctly, and bars cannot be combined to determine percentage of questions answered correctly on the overall exam. If a bar is not displayed for a skill area, no questions were answered correctly in that section of the exam.
