About the Event:

T. Vishnu Vardhan Reddy, Asst. Professor of CSE, & placement & training officer, SRET had explained about career counselling. He said that a successful engineering degree takes into account of many factors like right college, right internships, analytical and technical skills i.e., selection of right domain, etc.

As a career counsellor, he suggested the students to opt for a psychometric assessment which is exclusively made for selection of engineering branches, known as "Engineering Branch Selector Test". The Engineering Branch Selector psychometric assessment is based on interest and capability base segmentation to find the potential and area of interest of an individual.

About the Event:

Mr. T. Kosaleswara Reddy, Assistant Professor of EEE was explaining about the outcome based education. He gave an explanation on an aligned course has learning outcomes, assessment methods, and teaching strategies that are consistent and balanced (Biggs, 1996). A simple example is learning to drive a car: if you want to teach someone to drive, their 'final assessment' is typically a driving test, rather than a written exam. He made clear to say about Outcome based education encourages self-learning. Learners not only gain knowledge from the trainers but also study on their own to gain complete knowledge. Candidates can also identify their mistakes and weak points to take corrective steps and streamline their learning path. He discussed the Principles of Outcome-Based Education (OBE). They are: Organization of Curriculum, the syllabus and curriculum is designed & outlined keeping in mind the end-goal, Student Skill Enhancement, Outcome-Focused Techniques, Global Opportunities for Students, Course Outcomes (COs), Program Outcomes (POs), Program Educational Objectives (PEOs).
