Dear Sir/Madam/Balakrishna Barath

I have gone through the Common BOS meeting minutes; CE Department BOS meeting minutes; and CE Course structure & B.Tech & I M.Tech.
Pl. check the following issues with respect to I year M.Tech Course:
i) In **Advanced Structural Analysis**- Check the contents of III and IV units. Both are similar. Make appropriate changes
2) Compare the syllabus of **Advanced Concrete Technology** and **Finite Element Analysis** with B.tech Course. Similarity After corrections, it can be approved.

With Warm Regards

Dear Prof Balakrishna Barath,

I have gone through the Common BOS meeting minutes; CE Department BOS meeting minutes; and CE Course structure & B.Tech & I.M.Tech.

The queries raised by the BoS members have been duly addressed and approved.

1. However, my sincere request to you would be to include only the latest editions of books (mentioning year). For example, Elasticity and Plasticity by Timoshenko, S., MC Graw Hill Book Company. Here, there is no mention of Edition Number and Year. You must include these, as the relevant code relaxation provisions would be updated only in the latest editions. I hope you got my point. Kindly address this issue for all the subjects.
2. Please follow a standard format for all the subjects in the syllabus. I have noticed some formatting issues in the M.Tech syllabus (particularly for Program Elective 1 and Program Elective 2). There is confusion between the course code and subject name and they are not properly aligned. Please try to fix the issue in the final version.

Kindly acknowledge the receipt of the mail being sent.
